

ABOUT THE CONFERENCE

HMRITM is going to organize an "International Conference on Emerging Applications of Artificial Intelligence, Machine Learning and Cybersecurity" (ICAMC-2024) in the month of May 2024.

ICAMC 2024 is the premier single-track conference for reporting advances in all AI, ML and CS aspects, including theory, tools, applications, systems, test-beds and field deployments. The conferences focuses on the core science to develop fundamental principles that underpin the integration of intelligence, as well as on the development of technologies, tools, architectures and infrastructure for building a systems, highlighting the design, implementation, and investigation of system. Application domains include (but are not limited to): transportation, energy, water, agriculture, medical and assistive technology, sensor and social networks, robotics, smart cities, ecology, and supply-chains. Among the relevant research areas are security, control, optimization, machine learning, game theory, mechanism design, mobile and cloud computing, model-based design, verification, data mining / analytics, signal processing, and human-in-the-loop shared or supervisory control.

The scope of ICAMC 2024 is to provide an international forum to promote, enhance and stimulate international research interactions and collaboration in the fields of Computer Science, Electronics, Electrical, Healthcare, Information Technology & Management. It will facilitate to promote the exchange of ideas among interested researchers, students, industrialist, developers and practitioners. This conference will also feature plenary talks, workshops, and parallel technical sessions. Selected papers will be published in prestigious book series with ISBN number or Scopus indexed journals* or UGC journals.

ICAMC 2024

2nd International Conference on Emerging Applications of Artificial Intelligence, Machine Learning and Cybersecurity

Organized by:

HMR INSTITUTE OF TECHNOLOGY AND MANAGEMENT

Hamidpur, Delhi

ABOUT THE ORGANIZATION

HMR Institute of Technology & Management was established in the year 2002. It is spread over sprawling lush green campus 5 acres of land. HMRITM exists for nurturing the Technical Spirit - conceived in 2002, to provide exceptional facilities for students of Engineering and Technology, the HMR Institute of Technology and Management boasts of being among the reputed institutes even in its early stages. The Institute recognises the need for bringing up a new age cerebral workforce in today's highly competitive environment. The name HMR stands for the founders of this institution Late Sh. Hiralal, Late Smt. Mohan Devi and Late Smt. Rita Gupta. The Institute provides an atmosphere that ensures academic excellence and industry exposure that helps equip the students with the technical skills and emotional intelligence to successfully grapple with the complexities of a dynamic technology-driven environment. This endeavour is greatly aided by the local on of the institute in Delhi that is home to several corporate houses and industries. The institute stands for quality embedded higher education at par with global standard and an excellent learning environment backed by innovative state-of-the-art infrastructure. Further, it aims to add greater value to the world of crucial engineering developments and technological breakthroughs through an active focus on research and development activities. With a bird's eye-view of all-encompassing development, it strives to achieve faster progress for students, and for itself.

Foreign Participants: - USD 100

CALL FOR PAPER:

Prospective authors are invited to contribute high-quality papers by the submission deadline through the online submission system. The submission of a paper implies that the paper is original and has not been submitted under review or is not copyright-protected elsewhere and will be presented by an author if accepted. All submitted papers will be refereed by experts in the field based on the criteria of originality, significance, quality and clarity. The authors of accepted papers will have an opportunity to revise their papers and take consideration of the referees' comments and suggestions. Different tracks will be included. Application domains include(but not limited to):

- Smart Mobility- An intelligent way to a Smart World
- Intelligent Robots & Control System
- Artificial Intelligence and Machine Learning
- Cybersecurity
- Autonomic and Trusted Computing
- Big Data
- Biomedical Informatics and Computation
- Cloud Computing
- Computer Architecture
- Computer Games and Animation
- Computer Graphics and Design
- Computer vision
- Data Compression
- Distributed and parallel systems
- Embedded Computing
- Crowdsourcing and Information Retrieval (Big Data) and many more
